

Simon Berry from Manchester read my begging letter in Classic and Sportscar and kindly sent me this photograph.

It was taken two years ago at Oulton park on Tuscan Challenge day. The car is the V8 five litre Holden engined prototype which Peter Wheeler used as his personal transport to race meetings

Simon is not a member of the club which makes his support all the more pleasing.

### Leisurewear Reminder

Club members are reminded that if they are considering the purchase of regalia leisurewear, to check carefully their own size against the leisurewear sizes shown on the regalia insert. As we are now in the position to order garments of almost any colour with a variety of logos, it is becoming almost to the position of individual tailoring.

In view of this, our suppliers are refusing to take garments back if they are too large or too small.  
**GET YOUR MEASUREMENTS RIGHT.**  
You have been warned!

The Regalia Insert will appear next month so that you can order your Leisurewear for the Summer
